teeny tiny ficlet

For **morganoconner** because she's not doing the five acts meme. Also 'cause I like the pairing.

Dean/Castiel/Gabriel, PWP, short-n-sweet

Dean's thinking that he's not made for this, not made to be stretched so far and he grips Gabriel's arms, trying to convey that they need to slow down, please, before it's too much, and -

Gabriel kisses him, catching Castiel's hips, and forces him still, even when Castiel whines into Dean's neck.

Dean mutters thanks into Gabriel's mouth, and moments later when Gabriel asks if now, now can Cas move, he nods.

He's ready.
